

PIDB Meeting Announcement & Federal Register Notice

Mr. Martin Faga, Acting Chairman of the Public Interest Declassification Board (PIDB), and Mr. William J. Bosanko, Director of the Information Security Oversight Office and Executive Secretary of the PIDB, have asked that I send you a copy of the Federal Register notice announcing the public PIDB meeting that will be held on Wednesday, July 8, 2009, from 9:30 a.m. to 12:30 p.m.

The meeting will be held in the Archivist Reception Room (Room 105) of the National Archives and Records Administration, 700 Pennsylvania Avenue, NW, Washington, D.C. 20408-0001.

At the meeting, the Board will solicit public input concerning recommendations and proposed revisions to the classification and declassification policies found in Executive Order 12958, as amended, "Classified National Security Information" (the Order). This action is being taken at the request of the National Security Advisor and in support of the ongoing review of the Order directed by President Barack Obama on May 27, 2009.

In addition to the public meeting, the PIDB hopes to launch and use a blog to solicit recommendations for revisions to the Order in four topical areas: declassification, creation of a National Declassification Center, classification, and technology challenges and opportunities.

Once posted, each topic would be available for comments for three days.

At the conclusion of the third day, the comment function on the topic would be turned off and the next topic would begin the following day.

After each topic closes, a concluding summary would be posted to the blog. We intend on sending you an e-mail in advance of launching the blog.

Mr. Faga and Mr. Bosanko hope you will be able to attend this important meeting and the Board looks forward to receiving thoughtful ideas and innovative suggestions that will further the policy discussion and assist the PIDB in making recommendations to the National Security Advisor. To confirm your attendance, please email PIDB@nara.gov. If you are unable to attend the July 8, 2009, meeting, the PIDB will also accept input via the blog or via email (PIDB@nara.gov), fax (202-357-5907), and U.S. mail (Public Interest Declassification Board, National Archives and Records Administration, 700 Pennsylvania Avenue NW, Room 100, Washington, D.C. 200408-0001).

For further information contact, John Powers (202-357-5407 or john.powers@nara.gov) or myself.

Thank you,

SUPPLEMENTARY INFORMATION:

I. Abstract

The LIST (Locator and Information Services Tracking System) system form is used primarily to support services at GSFC dependent upon accurate locator type information. This locator system also serves as a tool for performing short and long-term institutional planning.

II. Method of Collection

Approximately 50% of the data is collected electronically by means of the data entry screen that duplicates the Goddard Space Flight Center form GSFC 24-27 in the LISTS system. The remaining data is keyed into the system from hardcopy version of form GSFC 24-27.

III. Data

Title: Locator and Information Services Tracking System (LISTS) Form.
OMB Number: 2700-0064.

Type of review: Extension of currently approved collection.

Affected Public: Federal government, individuals or households, and business or other for-profit.

Responses Per Respondent: 1.

Annual Responses: 8,455.

Hours Per Request: 0.08 hours/5 minutes.

Annual Burden Hours: 702.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be

collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Dr. Walter Kit,

NASA Clearance Officer.

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0255; Docket No. 030-06652]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment to Byproduct Materials License No. 47-00260-02, for Termination of the License and Unrestricted Release of Two Union Carbide Corporation Facilities Located in South Charleston, WV

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of Environmental Assessment and Finding of No Significant Impact for License Amendment.

FOR FURTHER INFORMATION CONTACT:

Steve Hammann, Health Physicist, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania; telephone 610-337-5399; fax number 610-337-5269; or by e-mail: stephen.hammann@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Byproduct Materials License No. 47-00260-02. This license is held by Union Carbide Corporation (the Licensee) for its South Charleston Technology Park and South Charleston Plant located, respectively, at 3200 Kanawha Turnpike in South Charleston, West Virginia, and at 437 MacCorkle Avenue in South Charleston, West Virginia (the

Facilities). Issuance of the amendment would authorize release of the Facilities for unrestricted use and termination of the NRC license. The Licensee requested this action in a letter dated March 7, 2008. The NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of Title 10, *Code of Federal Regulations* (CFR), part 51 (10 CFR part 51). Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate with respect to the proposed action. The amendment will be issued to the Licensee following the publication of this FONSI and EA in the *Federal Register*.

II. Environmental Assessment

Identification of Proposed Action

The proposed action would approve the Licensee's March 7, 2008, license amendment request, resulting in release of the Facilities for unrestricted use and the termination of its NRC materials license. License No. 47-00260-02 was issued on August 15, 1956, pursuant to 10 CFR part 30, and has been amended periodically since that time. This license authorized the Licensee to use sealed and unsealed byproduct material for purposes of conducting research and development activities, sample analysis and instrument calibration.

The Facilities are situated on approximately 850 acres of land and consists of undeveloped land and numerous buildings used for a variety of purposes, including office space and laboratories, storage, and manufacturing. The Facilities are located in a mixed commercial and industrial area. Within the Facilities, use of licensed materials was confined to Buildings 701, 707, 712, 720, 722, 725, 727, 740, 741, 747, 770, 771, 773, 776, 777, 778, and 785.

In April, 2008, the Licensee ceased licensed activities and initiated a survey and decontamination of the Facilities. Based on the Licensee's historical knowledge of the sites and the condition of the Facilities, the Licensee determined that only routine decontamination activities, in accordance with their NRC-approved, operating radiation safety procedures, were required. The Licensee was not required to submit a decommissioning plan to the NRC because worker cleanup activities and procedures are consistent with those approved for routine operations. The Licensee conducted surveys of the Facilities and provided information to the NRC to demonstrate that it meets the criteria in subpart E of
