

## **ASAP Training Program Presentations and Supplemental Materials**

Thank you for registering for the ASAP training program. We hope you will make the most of the educational experience by being engaged and participating. If you have a specific question, please do not hesitate to seek out the presenters, ASAP board members or staff.

To enhance your learning experience, please download any presentation materials you want and save them to your device or print out for note taking during the sessions. We are delivering the materials in formats that are preferred by most of the registrants and that lend to more efficient printing. Keep in mind that **Internet IS NOT available in the meeting rooms**, so if you prefer working with electronic only, we strongly recommend that you download the materials to your device where they are accessible without Internet.

The hotel has a Fed-Ex office that can be used for printing at your costs, so we strongly recommend that you print materials prior to coming to the program.

Not all speakers or sessions may have presentation materials associated with them. Please recheck the website throughout the week in case there are last minute postings or revised materials.

Thank you!
