Course #: 1606 (Videoconference Format)

Program

2:00 p.m. Welcome and Introduction ASAP President Ryan Mulvey, JD

2:01 p.m. Introduction of the Honorable John Facciola Chair Nick Wittenberg, JD

2:02 p.m. Challenges in the Digital World The Honorable John Facciola
Nicholas Wittenberg, Deloitte

With the rise of AI, Cyber, and issues with privacy, so too have the waves of data have grown to oceans of information. We use to deal with FOIA documents at the paper level. Bankers boxes and storage rooms are a thing of the past. Now the sheer volume has dramatically ballooned thanks to the digital world we now live in. As FOIA transformed from a paper world to traditional emails and attachments it has already began and will continue to evolve into a large universe of data beyond emails. Smart devices and apps, video, an information robustly produced from the Internet of Things will provide challenges in many environments including responding to FOIA request. This Tech Talk will help FOIA professionals prepare the future of FOIA in the digital world.

3:05 p.m. Final Question and Answers

3:15 p.m. Closing Remarks, Program Ends ASAP President Ryan Mulvey, JD
